Pediatric services are offered by Dr. Stacy Bowker, a professional member of the Pediatric Association of Naturopathic Physicians. Services include:

-

Newborn and Well Child Exams

-

Childhood vaccines (for eligible children--currently all children ages 0-18 are eligible through the WA State vaccines for children program)

-

Sports Physicals

-

Acute pediatric care (in office, evisit, or phone consultation)

-

FREE Infant Weight checks and Breastfeeding support (Dr. Bowker will refer you to a certified lactation specialist, if necessary)

Should your child need specialty care, Dr. Bowker will coordinate care with specialists affiliated

with Seattle Children's Hospital. Because Dr. Bowker does not have hospital privileges, initial newborn exams are typically done by the hospital pediatrician or midwife (in the case of a home or birth-center birth). Expectant parents wishing to establish care for their baby with Dr. Bowker should schedule a meet & greet appointment prior to the baby's birth and plan to schedule a first office visit when the baby is 10-14 days old.
